news and tidbits from around the cape

## Spa...ahhh!

**C**elebrating the essence of summer and the sea, The Spa at Chatham Bars Inn has unveiled a new menu of treatments that incorporate elements of Cape Cod. Traverse down the shell-lined driveway, pass the secluded oasis featuring a heated pool and private cabanas for outdoor massages, then enter the luxurious 2,500-square-foot spa for a treatment featuring sea shells, algae, beach stones, cranberries and sea salts that will leave you relaxed, refreshed and rejuvenated. New treatments include the Healing Sea Cocoon, where hand-harvested algae envelopes the body to create softer-than-soft skin; the Tides Massage, where warm seashells and smoothed beach shells are stroked against the skin to mimic the movement of the tides; and the 90-minute

DAN CUTRONA

Sea Dew Hot Stone Massage, infusing rosemary oil, the "dew of the sea," with smoothed, heated basalt stones. After your treatment, sit back in the relaxation room and enjoy private Bose sound systems before retreating to the private steam showers—you'll never want to leave.
